PROFILE SUMMARY

Full-Stack Developer specializing in the MERN stack. Proven ability to design, develop, and deploy scalable full-stack web applications, from responsive creative frontend design to secure RESTful API development and database management of web applications.

EXPERIENCE

Web Development Intern

Sep 2025 – Oct 2025

Cut Edge Technology | Html, CSS, Javascript

Gurgaon

- Ensured visual accuracy and adherence to design specifications while maintaining clean, maintainable code, reducing UI inconsistencies by 30%.
- Integrated REST APIs to display dynamic data on the frontend and improved data rendering time.
- Translated wireframes and UI/UX designs into frontend and improved UI load time by 20%.

Web Development Trainee

Sep 2023 – Oct 2023

Thought Applied Creations | HTML, CSS, JavaScript, React.js

Raipur

- Built interactive user interfaces and responsive web pages using frontend technologies
- Collaborated with backend developers to integrate RESTful APIs
- Gained hands-on experience with both NoSQL (MongoDB) and SQL databases, performing basic data management operations.

PROJECTS

Secure E-voting Backend System | Node.js, MongoDB, Express.js

[Github](#)

- Designed & Enforced a secure, role-based voting backend system
- Integrated Aadhaar-based authentication using JWT tokens, reducing unauthorized access attempts by 95% compared to password-only logins
- Built admin dashboard APIs for candidate management (CRUD) with granular access control

QuickBite | React.js, Tailwind CSS

[Github](#)

- Built a fully responsive food ordering web application using React.js and Tailwind CSS, improving component reusability and code efficiency by 30%.
- Implemented global state management using Redux Toolkit for cart logic and UI updates, reducing code complexity by 35% and improving state accuracy.
- Added features like notifications, category filters, and search functionality, enhancing overall UI interaction.

Music School | Next.js, Shadcn/ui, Aceternity UI, Tailwind CSS

[Live Link](#)

- Developed interactive music-learning frontend platform which has reusable UI components using Next.js (App Router) with cross-browser compatibility.
- Integrated server-side rendering (SSR) for faster performance and SEO optimization with smooth, visually engaging UI.

TECHNICAL SKILLS

Programming Languages: Java, C++, Javascript, SQL

Frontend: HTML5, CSS3, Tailwind CSS, React.js.

Backend: Node.js, Express.js

Databases: MongoDB, Supabase

Other: REST APIs, Git/GitHub, version control, SEO, Responsive Design

EDUCATION

Shri Shankaracharya Institute of Professional Management and Technology

Raipur, Chhattisgarh

Bachelor of Technology in Computer Science Engineering

2021 – 2025

Percentage: 68%

Ishwar Public School

Raipur, Chhattisgarh

12th in PCM

2021

Percentage: 90%
