PROFILE SUMMARY

Full Stack Developer with a strong foundation in computer science and a passion for building scalable and user-friendly web applications. Skilled in developing responsive frontend interfaces and reliable backend systems using clean, maintainable code. Experienced in working with modern web technologies, RESTful APIs, databases, and agile development practices to deliver efficient and high-quality software solutions.

TECHNICAL SKILLS

Programming Languages: Java, Javascript, C++

Frontend: HTML5, CSS3, Tailwind CSS, React.js, Next.js, UI/UX, jQuery

Backend: Node.js, Express.js, Next.js

Databases: MySQL/NoSQL, MongoDB

Other: API Integration, RESTful APIs, GitHub, version control, SEO, Responsive Design

EXPERIENCE

Web Development Intern

Sep 2025 – Oct 2025

Cut Edge Technology | HTML, CSS, JavaScript, React.js

Gurugram

- * Developed responsive frontend interfaces using HTML, CSS, and JavaScript for web-based applications
- * Collaborated with the development team to integrate APIs and improve website functionality and user experience.
- * Used Git and GitHub for version control while maintaining clean and efficient code..

Web Development Trainee

Sep 2023 – Oct 2023

Thought Applied Creations | HTML, CSS, JavaScript, React.js

Raipur

- * Built interactive user interfaces and responsive web pages using frontend technologies
- * Collaborated with backend developers to integrate RESTful APIs
- * Gained hands-on experience with both NoSQL (MongoDB) and SQL databases, performing basic data management operations.

PROJECTS

Social Connect | Next.js, TypeScript, PostgreSQL - Supabase, Zustand, Tailwind CSS, Shadcn UI

[Live Link](#)

- * Developed a full-stack social media web application enabling secure user authentication, profile management, and social interactions like follow/unfollow, posts, likes, and comments with role-based access (user/admin).
- * Implemented secure JWT-based user authentication, Supabase Email Authentication, complete with password hashing, session handling and secure backend.

Secure E-Voting Backend System | Node.js, Express.js, MongoDB

[Github Link](#)

- * Designed and developed a secure backend system implementing role-based authentication and authorization
- * Implemented JWT-based authentication to ensure secure access control and system reliability.
- * Built scalable REST APIs for handling user registration, voting operations, and administrative management.

QuickBite | React.js ,Tailwind CSS

[Live Link](#)

- * Built a scalable and responsive frontend application focused on performance and usability.
- * Implemented Redux Toolkit for global state management of cart logic and UI updates.
- * Added features such as search, category filters, and notifications to enhance user interaction.

EDUCATION

Shri Shankaracharya Institute of Professional Management and Technology

Bachelor of Technology in Computer Science Engineering

Raipur, Chhattisgarh

2021 – 2025
